

2025 ANNUAL CONVENTION

January 22-24 • Riverside Hotel, Boise, ID

Greetings from the President

Fellow IGWA Members,

On behalf of the Idaho Ground Water Association, I am inviting you all to the 2025 IGWA Winter Convention on January 23rd & 24th. The dates are again Thursday and Friday, as decided at the business meeting at last year's convention. We are very excited about this year's convention, which will once again be held at the Riverside Hotel in Boise, ID.

With the increased registration and membership fees from last year, we are able to bring in better speakers and classes. One of those speakers is Mike Schnieders with Water Systems Engineering out of Kansas. Mike is a seasoned NGWA keynote speaker, and we are excited to bring his insight into Idaho. Franklin Electric is also planning to hold a Pump Motor Class with hands-on testing and instruction.

As always, we will offer 2 Idaho State Rules & Regulation CEC credits and 2 state credits for Oregon and Washington. We will provide 12 CEC credits that pertain to drilling (including the 2 Idaho credits) and will offer pump classes, with additional state-specific classes in another room.

The manufacturers & suppliers will be on-site at the Convention with their exhibits, and the Crisis Fund will be holding a live auction, along with prizes and raffle tickets for a pistol.

I'm excited to announce that we've been working with Topgolf to host a group event on Thursday night after the convention. Contact the manufacturers & suppliers at the trade show to receive an invitation to the event.

Lastly, I want to thank you all for allowing me to serve as your President for another year. This is the end of my current term, but I will be up for re-election to the Board at the Business Meeting on Thursday the 23rd. I hope to be re-elected to the Board, and I also look forward to welcoming new board members.

I'm excited to see everyone again at this year's Winter Convention. Last year's convention was fantastic, with record attendance, and I'm hopeful this year will be even better.

Sincerely,
Sam Kingrey Down Right Drilling & Pump Inc.
President | Idaho Ground Water Association
